GROUNDBREAKER

The quality of a coffee is never just about the bean. It's never just about the roasting process and neither is it ever just about that first sip. The perfect coffee is an idea in constant evolution.

Integrated management system
PGS – Perfect Grinding System
for the highest quality coffee and the
utmost flexibility.

4.3-Inch touch screen display
to create custom settings every time.

Compact design and hopper with a smart
shape to improve visibility from the counter
and simplify refiling and cleaning.

Integrated work cycle with inverter
motor to maintain low power consumption
and consistent performance.

TECHNICAL DATA

Dimension W x D x H
(mm/inch)

215 x 400 x 580
8,7 x 157 x 24,6

Weight

19 kg
33,1 lb

Capacity of the bean container

1,5 - 1,7 kg
3,53 lb

R.P.M (at 50Hz)

1450 RPM

Grindstoners' diameter

64 mm
2,52 in

Output

3,5 - 4,1 g/s*
0,14 oz/s*

Installed power at
220 - 240V 50 - 60 Hz 320 W

220V 60Hz
